### **DETAILED ACTION**

Claims 144, 147, 148, 150-161, 163-168, 170, 171, 173-192 are pending in the application.

This Office Action is in response to the Amendment filed on 6/16/05.

#### ***Response to Amendment***

The rejection of claims 144, 147, 148, 150-161, 163-168, 170, 171, 173-192 under 35 U.S.C. 112 1<sup>st</sup> paragraph is moot in view of the new ground of rejection necessitated by Applicant's amendment.

#### ***New Grounds of Rejection Necessitated by Applicant's Amendment***

##### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 144, 147, 148, 150-161, 163-168, 170, 171, 173-192 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In the response filed on 6/16/05, Applicant amended claims 144, 168 and 177 to recite a molecular switch comprising "a mutated progesterone receptor ligand binding domain which is distinct from a naturally occurring ligand binding domain by deletion of up to 54 naturally occurring carboxyl terminal amino acids of the ligand binding domain." The specification fails

Art Unit: 1636

to provide specific teaching for the claimed molecular switch having deletion of carboxyl terminal up to 54 naturally occurring amino acid. Therefore, such recitation constitutes new matter. Claims 147, 148, 150-161, 163-167, 170, 171, 173-176, 178-192 are also rejected for containing new matter because they depend on claims 144, 168 and 177.

### *Conclusion*

No claims are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
